

# DIGITALISATION OF TELECOMMUNICATIONS

The telecommunications (telecoms) industry has faced a rapidly transforming business model, as technological and regulatory changes impact operators. BBD has over 25 years of experience working alongside world renowned telecoms giants.

## Mobile operator **billing system**

Itemised billing systems which include customer information, accounting, age analysis, debtor analysis, stock control, network integration, itemised billing analysis, flexible tariffs and archive integration modules.

## Award-winning **mobile app development**

We partnered with a large African mobile communications company to develop an innovative mobile app that meets the ever-changing needs of their customers. This app went on to win the Best Mobile App in Africa award at the Digital Impact Awards for three consecutive years.

## Client **relationship management systems**

Web-based front-end CRM system for a South African wireless internet service provider, which migrated the clients' old data.

## Cloud **solutions**

Leveraging our 15-year partnership with an African telecoms giant, BBD assisted them with their digital transformation. We are leading their shift to cloud-based technologies with large digital rollouts.

## Contact **us**

Our belief in building software that works is embedded in our company ethos. This has defined our culture of delivery over the course of the 30 plus years we've been in the industry. If you're interested in partnering with BBD, contact us.
