

REVOLUTIONARY SOLUTIONS FOR LEADING INSURERS

As a leading custom software provider, we have been instrumental in some of the most significant transformations to sweep the insurance sector. We've honed our expertise to ensure that each solution is tailor-made for an organisation's needs.

BBD has provided sophisticated solutions to the insurance industry for over 25 years. We've helped to enable technical progression for leading risk and investment insurers worldwide.

Our Agile teams redesign and develop bespoke software including full line of business, premium collections, customised automatic quoting and case management and workflow systems. Delivering solutions that work is ingrained in who we are.

BBD in the **risk product** market

From mobile enterprise applications to commercial insurance platforms and calculation engines, we create innovative software that enables you to best serve your customers and make informed decisions on potential risk calculation changes.

BBD in the **investment product** market

Based on your life insurance and investment product offerings, we develop custom apps, platforms and advisor portals that increase efficiency. With experience in website apps, broker portals and applications, we use the latest technology to integrate systems, streamline processes or visually render fund data based on customer-specific needs.

Data security and compliance

We understand the importance of keeping your client's personal information secure. Our teams receive extensive POPI training to ensure we can meet all South African regulatory requirements. We are also adept at assessing necessary regulations such as GDPR, and offer insightful consulting services to assist you in maintaining data sovereignty and ensuring all compliance needs are met in this data-centric world.
