

BRAG SHEET

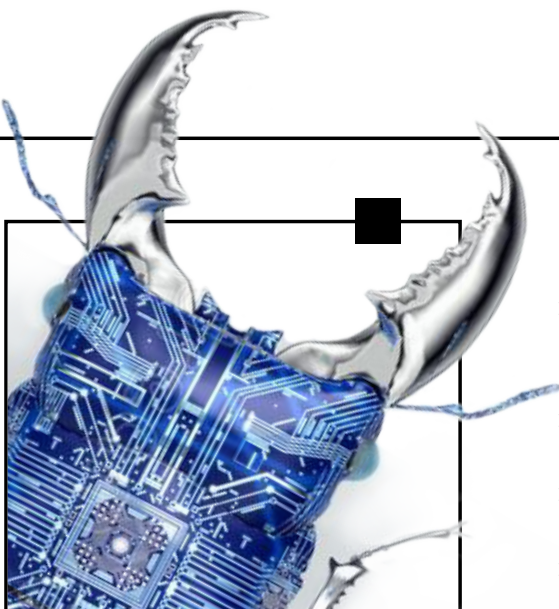

GIFTED PROFESSIONALS BY DAY

- › Over 800 highly talented technology experts
- › Our R&D team are super geeks, do ridiculously clever things and includes an astrophysicist
- › We have an inhouse Microsoft MVP
- › The R&D team facilitates continuous and varied learning to keep our teams on top of their game
- › Our staff are highly skilled with some having two masters' qualifications; we even have a resident Dr of Computer Science
- › We partnered with Vodacom to develop the My Vodacom App, which won Best Mobile App in Africa at the Digital Impact Awards Africa

NOT JUST A PLACE TO WORK - A PLACE TO GROW

- › Offices around the world
- › Our staff visit other BBD offices, both for work and cultural exchanges
- › Internal gamified Continuous Learning Programme that supports our sustainable culture of learning
- › Esc@pe, our annual tech event, allows staff to share and discuss key trends alongside leading industry speakers
- › The Hive is an onsite tech lab where staff can play to learn and even do a 3D print (or two)
- › We have ranked 1st in the My Broadband's Salary Survey for the IT sector
- › For years running, we have received a Platinum Seal in the Deloitte's Best Company Survey

HEAD IN THE CLOUD

- › AWS Standard Consulting Partner and a CloudFront Global Content Delivery Network Partner
- › Microsoft Azure Gold Certified Partner
- › Our skills base includes Certified Solutions Architect Professionals
- › We employ one of the first AWS Certified Advanced Networking Specialists in South Africa

FIND US IN THE TECH PLAYGROUND

- › BBD frequently attends and sponsors leading international industry summits and often cracks the nod to present
- › You can always find our talented speakers attending DevConf, SA's biggest software development conference
- › Official t-shirt sponsor at the very first DevFest
- › A BBD person was lucky enough to be chosen to attend the Google I/O in California, not once but twice!

EMPOWERING AN INDUSTRY

- › BBD is a level 2 B-BBEE rated company, proving our commitment to improving ICT skills, bridging the gap and changing lives through job creation
- › We're a founding partner of WeThinkCode_ (WTC), a tech-based learning institution that offers free software education
- › We get the top 20+ WTC students annually
- › A WTC grad who works for BBD won FutureHack and attended the F8 Facebook Developer Conference in San Francisco
- › We strongly believe in encouraging women in technology and have founded a programme with Umuzi to empower young, talented female coders
- › As a GirlCode sponsor we support and host hackathons and workshops
- › We are heavily involved in the ICT community and regularly host MoJo, Jozi-JUG, AWS-JOZI, Docker-Johannesburg and Jozi.JS meetups
